Grapefruit Blvd.

A project that seeks to create innovative greenspaces that not only help revitalize the community, but provide environmental benefits while creating social connectivity.

About the Project

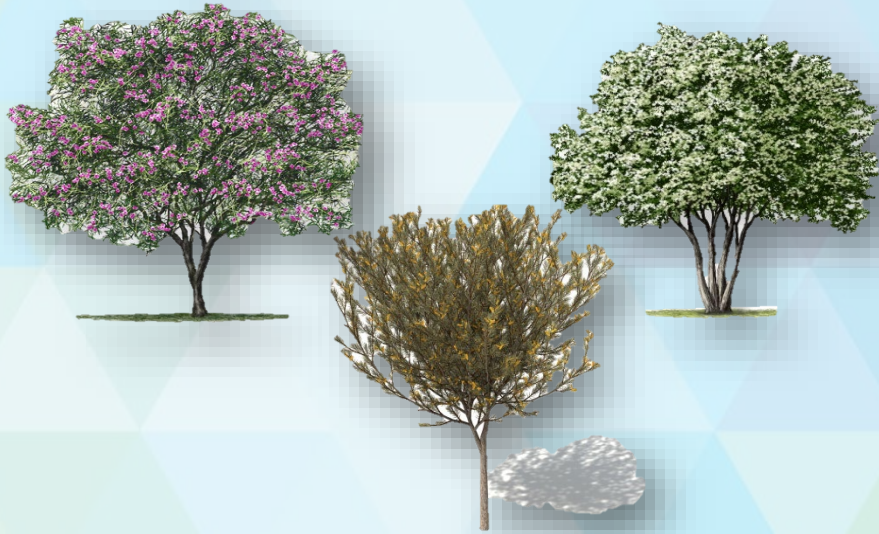

- The project will plant a total of 288 trees: 144 on each side of Grapefruit Boulevard
- 1,100 native, drought-tolerant and low-water plantings
- Install Security Lighting

- Construct Class II Bicycle Lanes
- Bioswales
- Wayfinding Signage
- Drinking Fountains
- Shaded Structures w/ benches, bicycle racks + repair kiosk

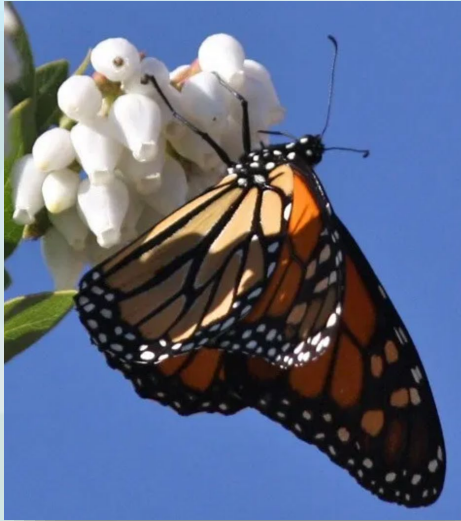

Tree/Plant Palette Design

- 1) *Dasyliiron wheeleri* ("Desert Spoon")
- 2) *Dalea greggi* ("Training Indigo Bush")
- 3) *Leucophyllum frutescens* ("Texas Ranger")
- 4) *Encelia farinosa* ("Brittlebush")
- 5) ¾-inch crushed gravel at all planter beds
- 6) 12" and 18" (planted) Boulders at focal points

Provides Habitat for Native Species **Pollinators**

Animals where you live

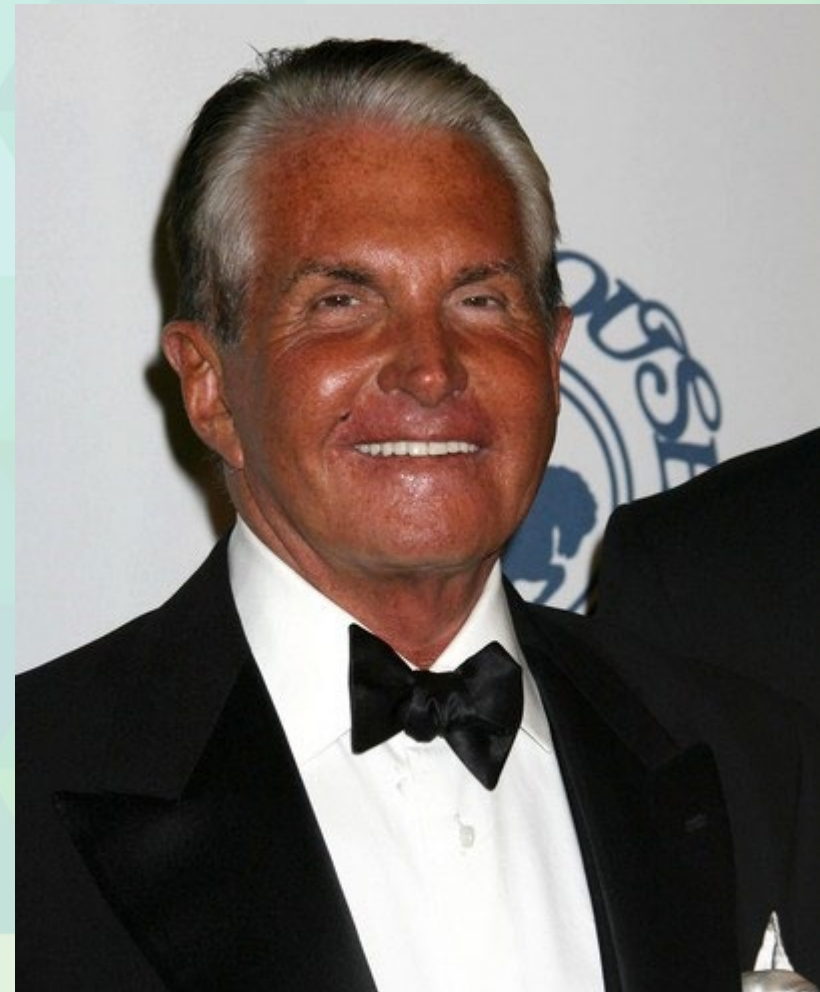

Cute Animals where I live

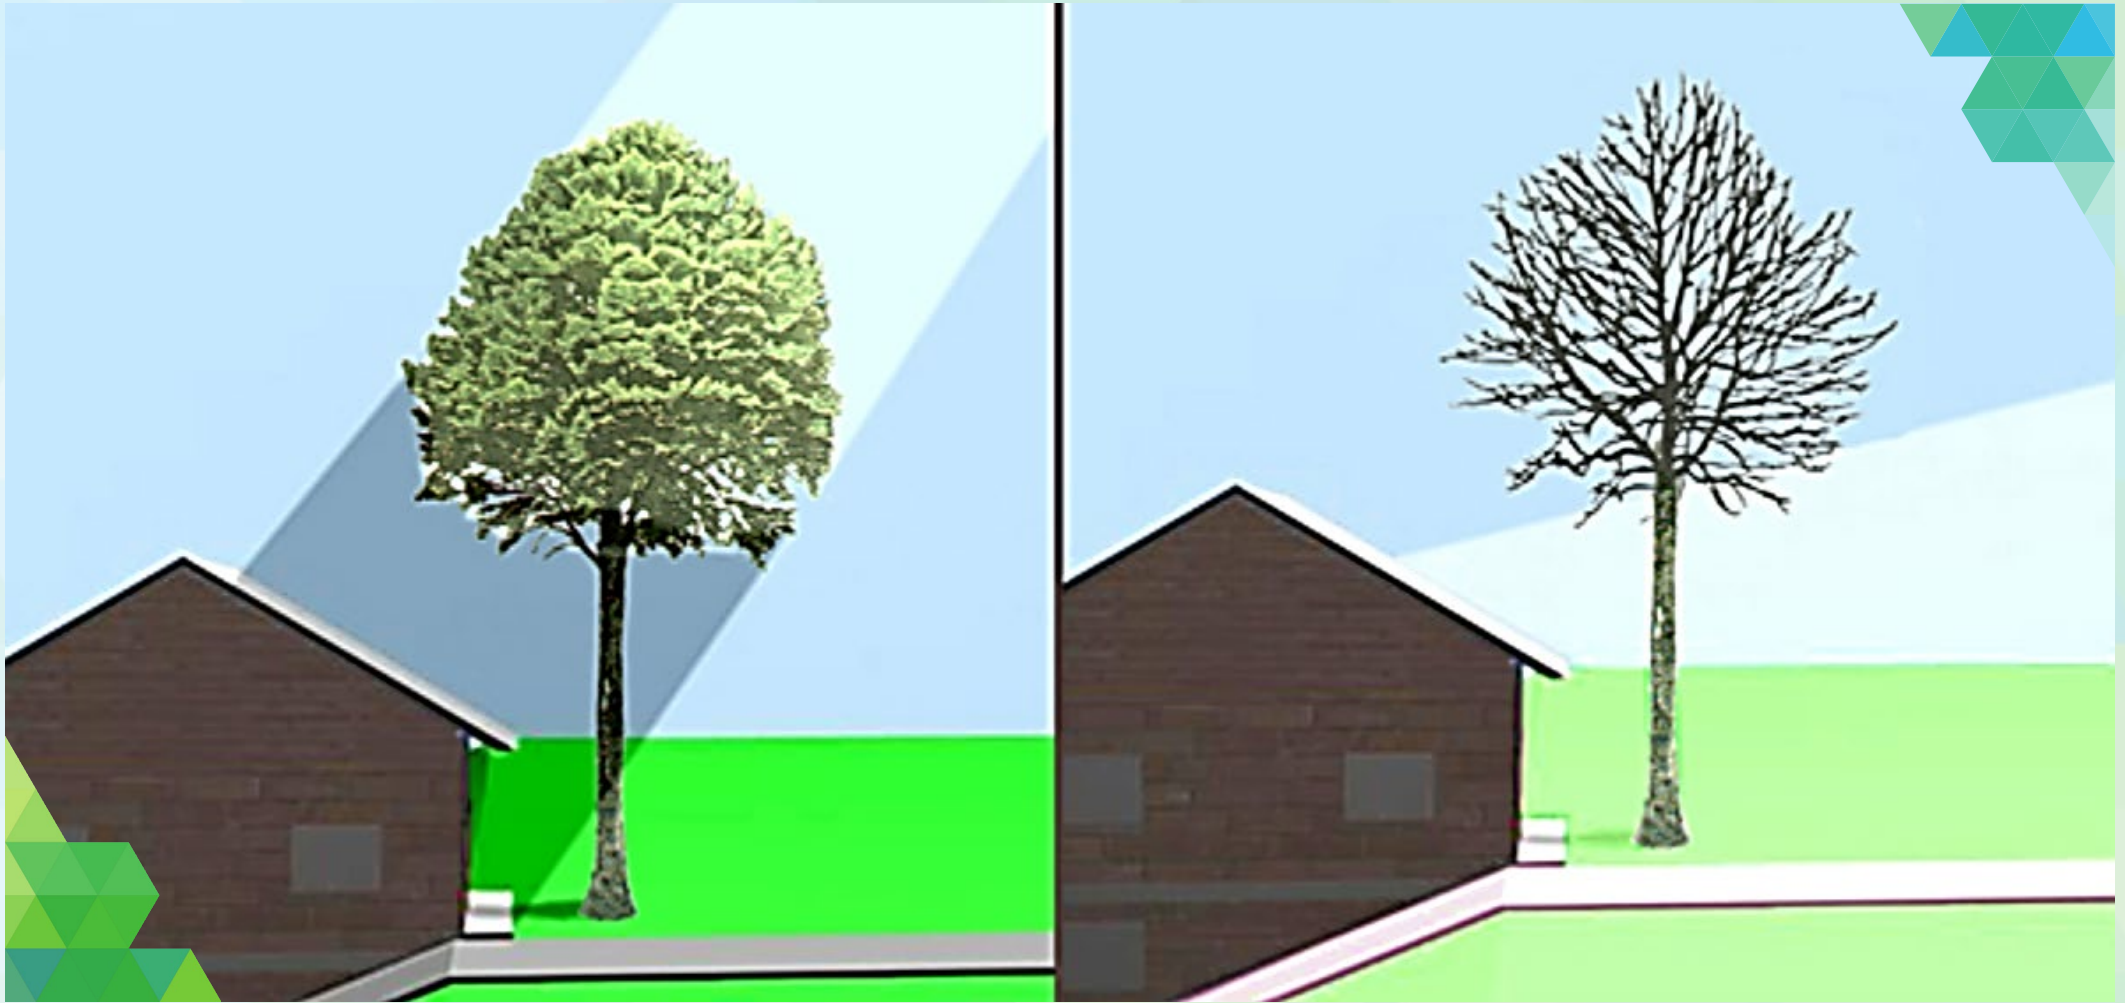

Actor Adaptation

- **Even our Actors have adapted to our climate!**

George Hamilton

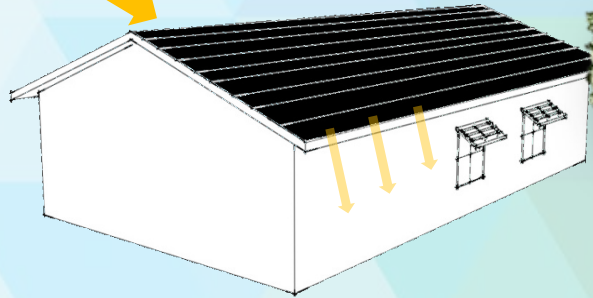

Shade Makes it Cooler!

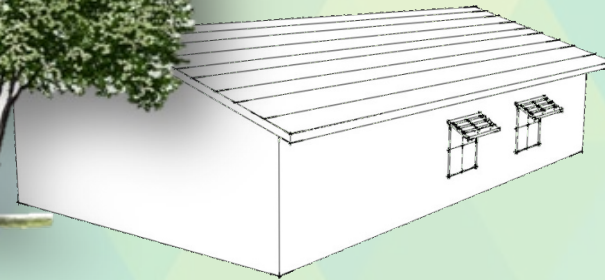

Reducing Heat Reduces Energy Consumption

AIR TEMPERATURE: 37°C (99°F)

DARK ROOF : 80°C (177°F)

LIGHT ROOF : 44°C (111°F)

66°F Difference

Project Under Construction

Thank You
