

Integrated Climate Adaptation and Resiliency Program

Technical Advisory Council 4th Quarter Meeting

December 9, 2022 | 9:30AM – 2:30pm

Morning Session Agenda

Item 1 | Welcome & Roll Call

Item 2 | Meeting Minutes

Item 3 | State Agency Updates

Item 4 | ICARP Programmatic Updates

Item 5 | Extreme Heat Symposium Synopsis

Item 6 | *Achieving Resilient Mobility* Report Briefing

LUNCH BREAK

Afternoon Session Agenda

Item 7 | CDBG-MIT Action Plan Amendment

Item 8 | OPR Federal Funding Resources

Item 9 | General Public Comment

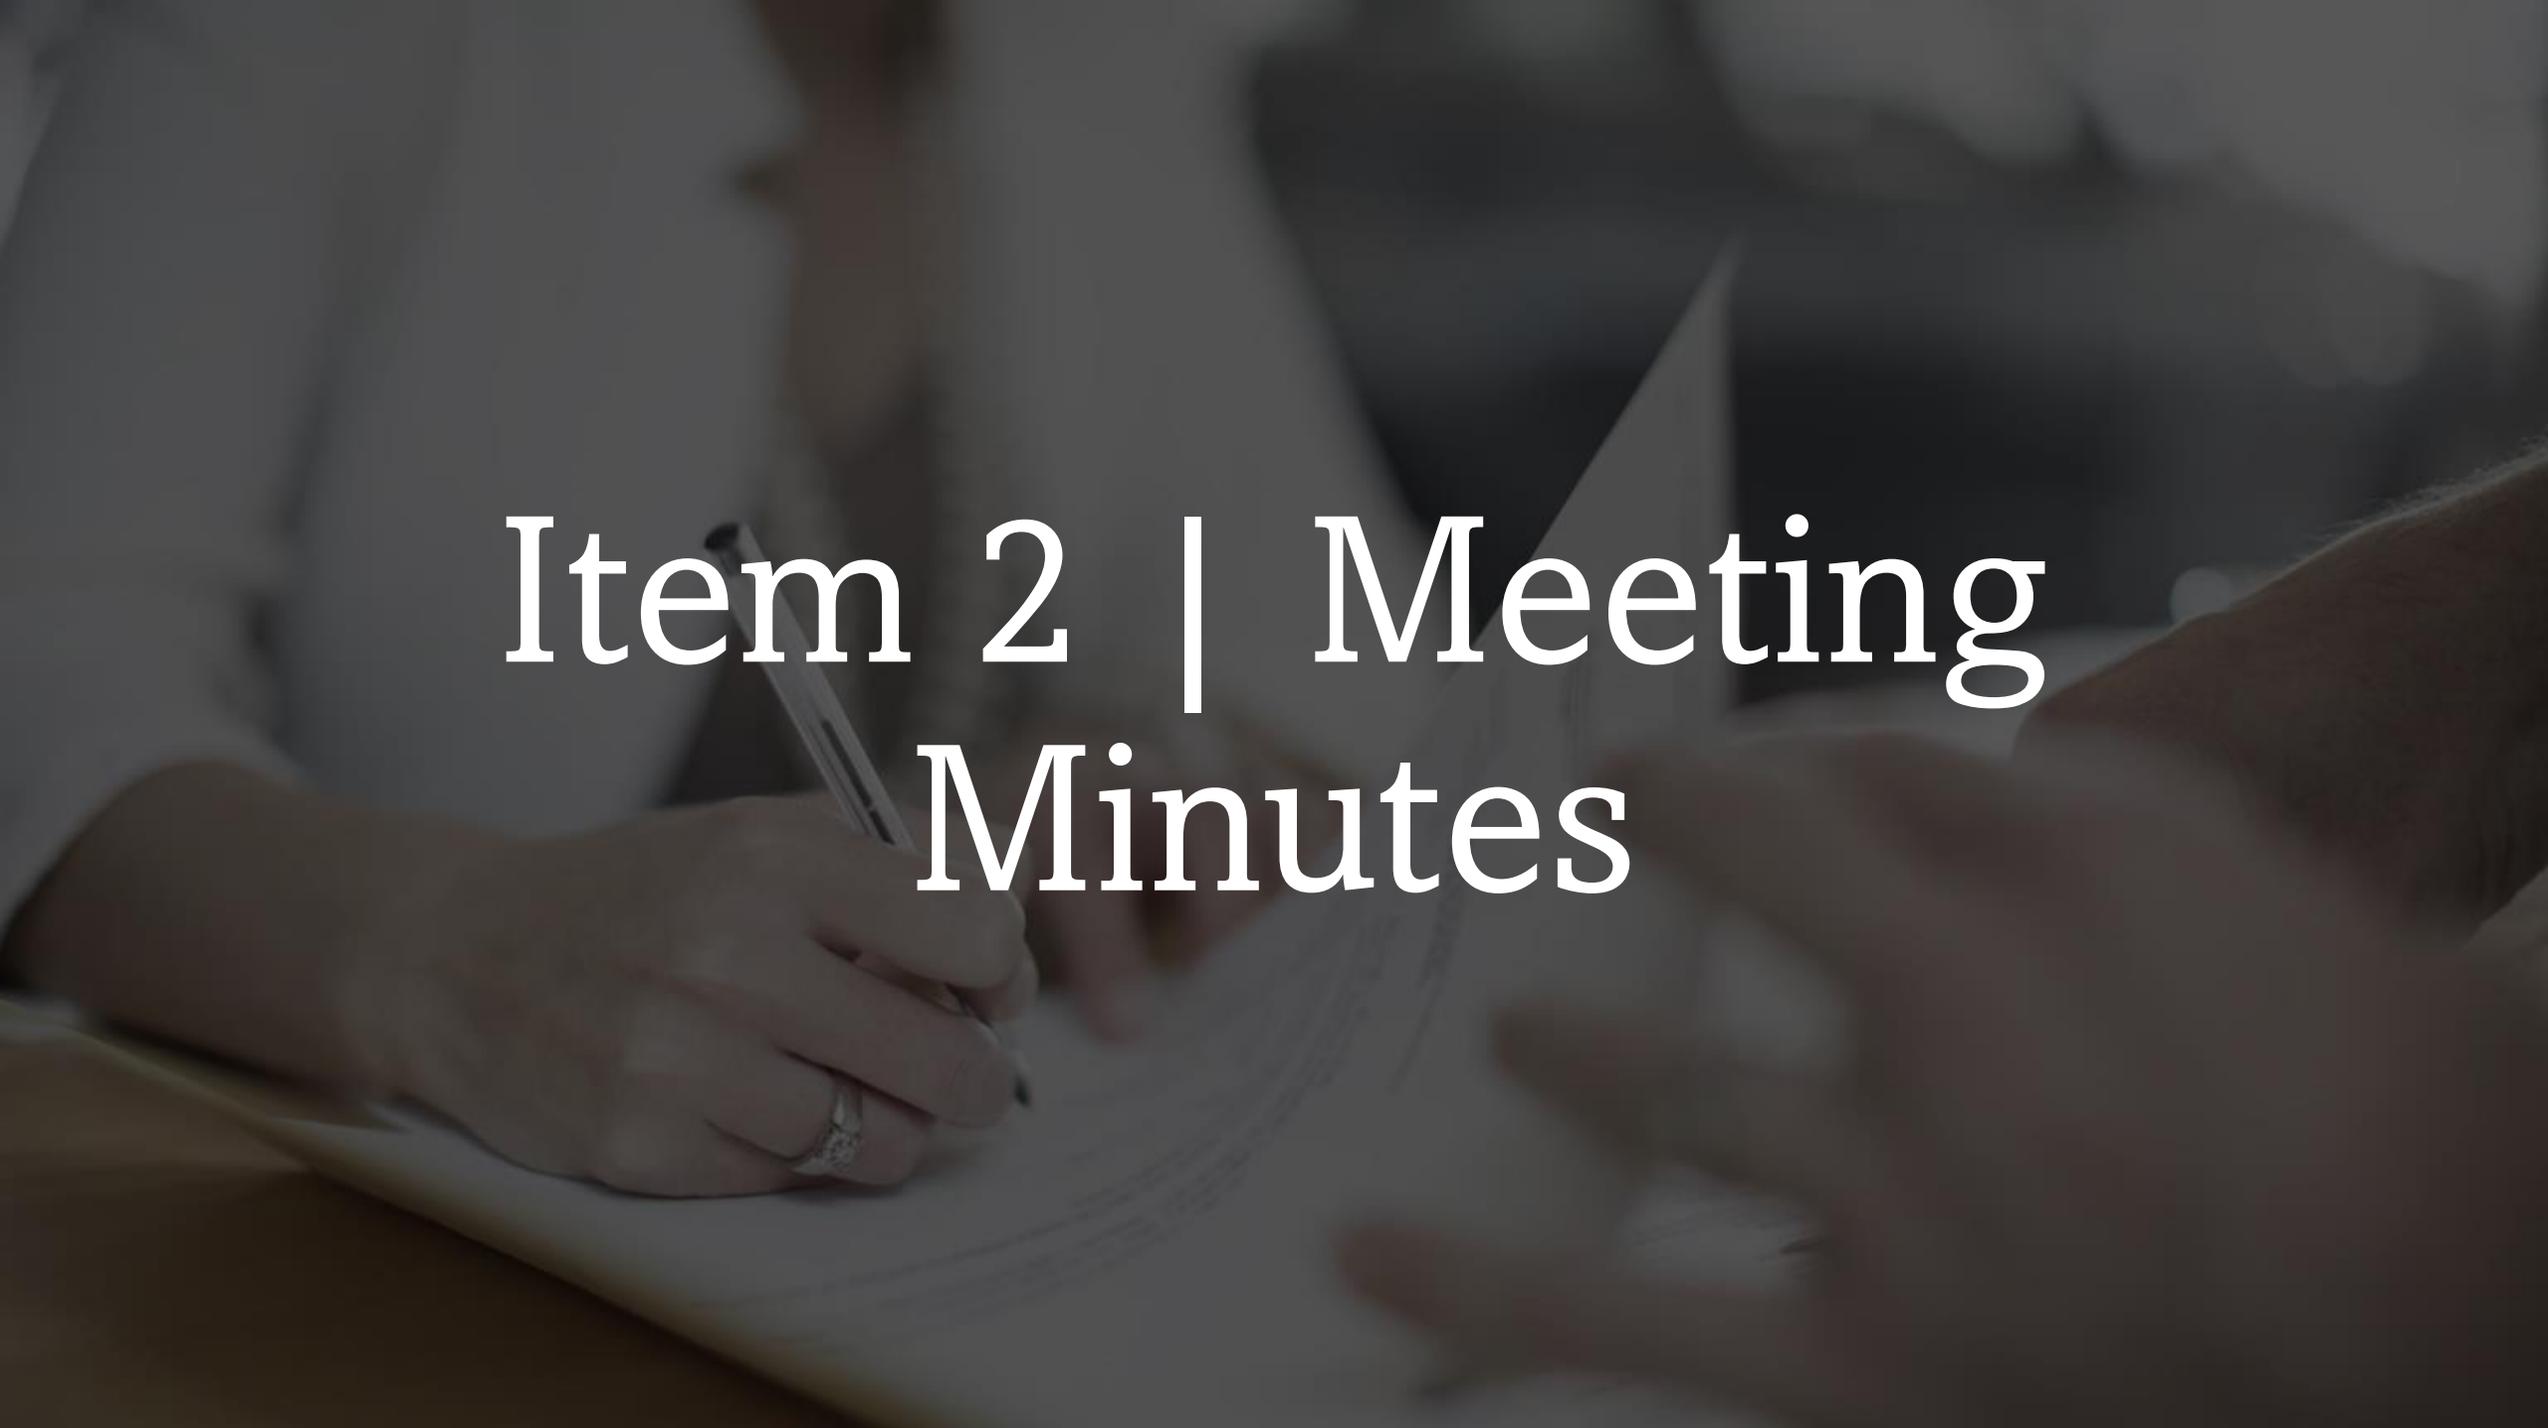

Item 10 | Closing, Future Agenda Items, & Meeting Adjourned

Public Comment Process

1. The Council will hear public comments for each agenda item, and general comments unrelated to agenda items at the end of the meeting.
2. The council Chair will call on you in the order your comment was received by ICARP Staff.
3. Prior to making your comments, please state your name for the record and identify any group or organization you represent.
4. **Online participants:** please use the Zoom “raise hand” function.
5. **Phone participants:** please press *6 to “raise your hand.”

A dimly lit conference room with people raising their hands. The scene is captured from a low angle, showing the backs of several people in the foreground. Many of them have their right hands raised, palm facing forward, in a gesture of participation or agreement. The room features large windows in the background, and the overall atmosphere is professional and collaborative. The text 'Item 1 | Welcome & Roll Call' is overlaid in white, centered on the image.

Item 1 | Welcome & Roll Call

Item 2 | Meeting Minutes

Item Public Comment

ACTION

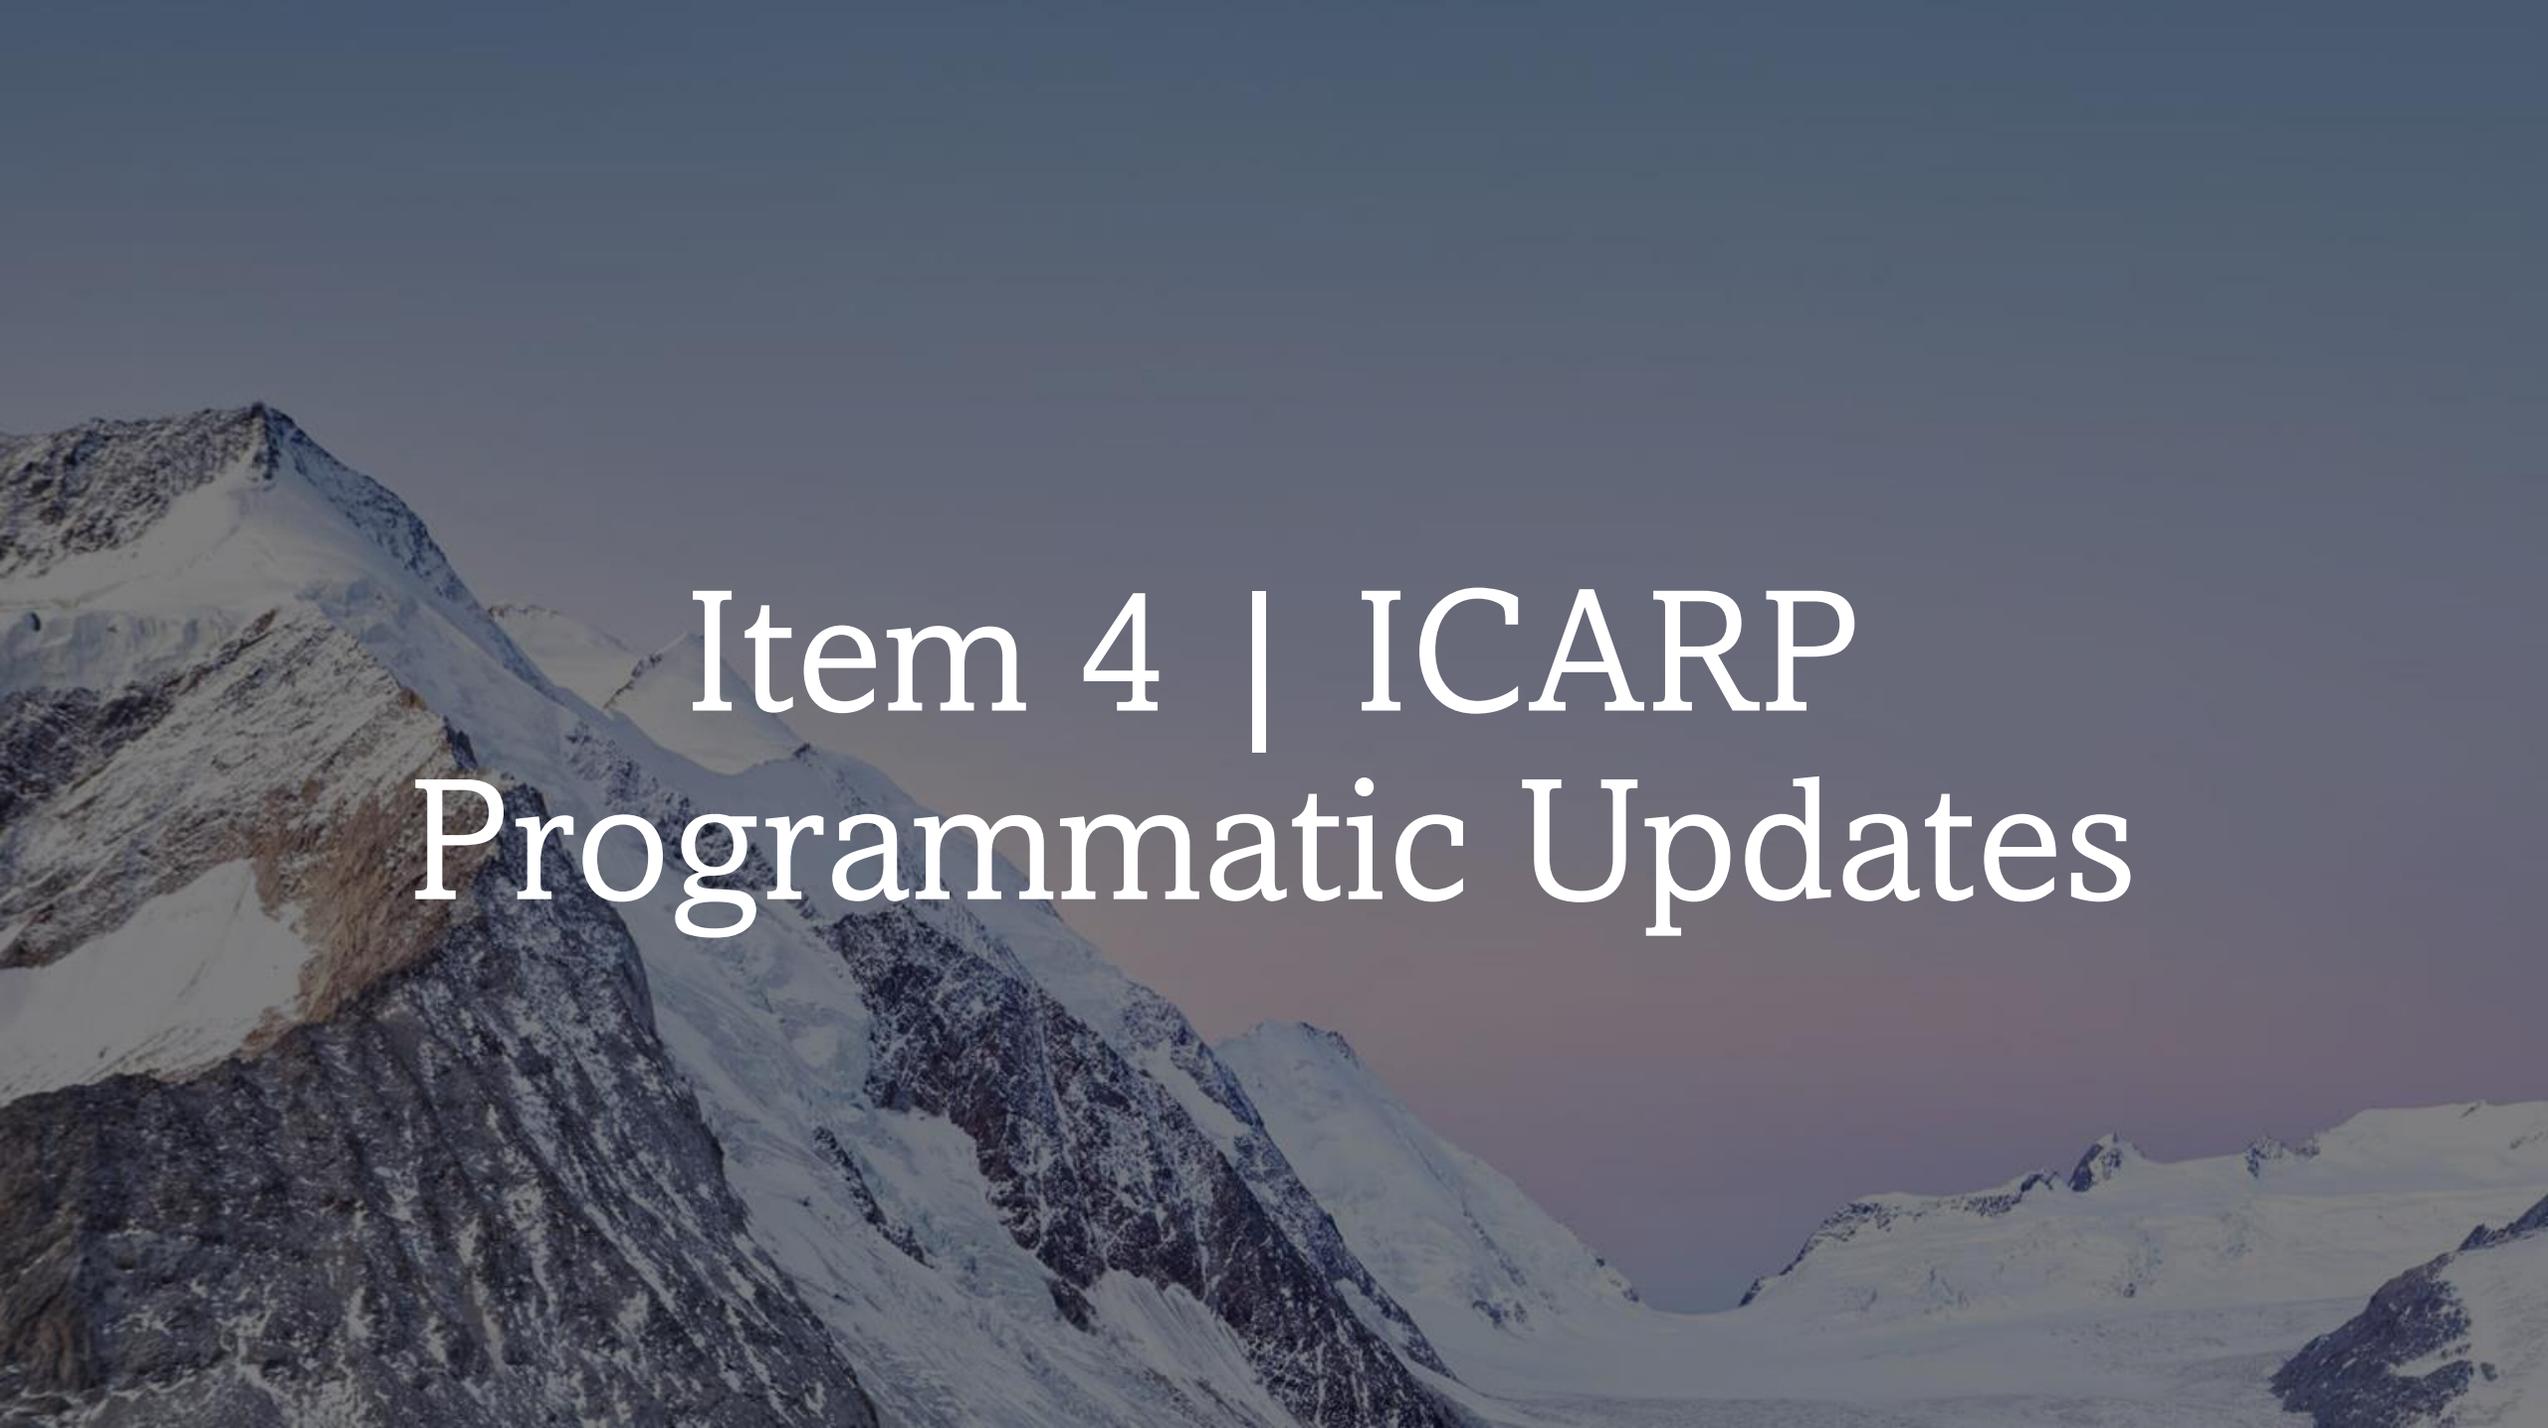

Approve the meeting minutes from the ICARP
Technical Advisory Council 3rd Quarter
Meeting on October 7th, 2022.

Item 3 | State Agency Updates

Item Public Comment

Item 4 | ICARP Programmatic Updates

Welcome New Staff!

Kate Lyons

Assistant Planner

Regional Resilience Grants

Ben McMahan

Program Manager

Climate Services

TAC Priority Areas

Actionable Research & Resilience Metrics

Decision Support Tools & Guidance

Building Partnerships & Leveraging Resources

Funding & Financing

Climate Equity & Vulnerable Communities

Additional Special Initiatives

Actionable Research & Resilience Metrics

- Fifth Climate Change Assessment

Decision Support Tools & Guidance

- Plan Alignment Toolkit

Funding & Financing

- Adaptation Planning Grant Program
- Regional Resilience Grant Program

Item Public Comment

A city skyline at sunset with palm trees in the foreground. The sky is a mix of orange, red, and purple, and the city buildings are silhouetted against it. In the foreground, several tall palm trees are visible, their fronds dark against the lighter sky.

Item 5 | Extreme Heat Symposium Synopsis

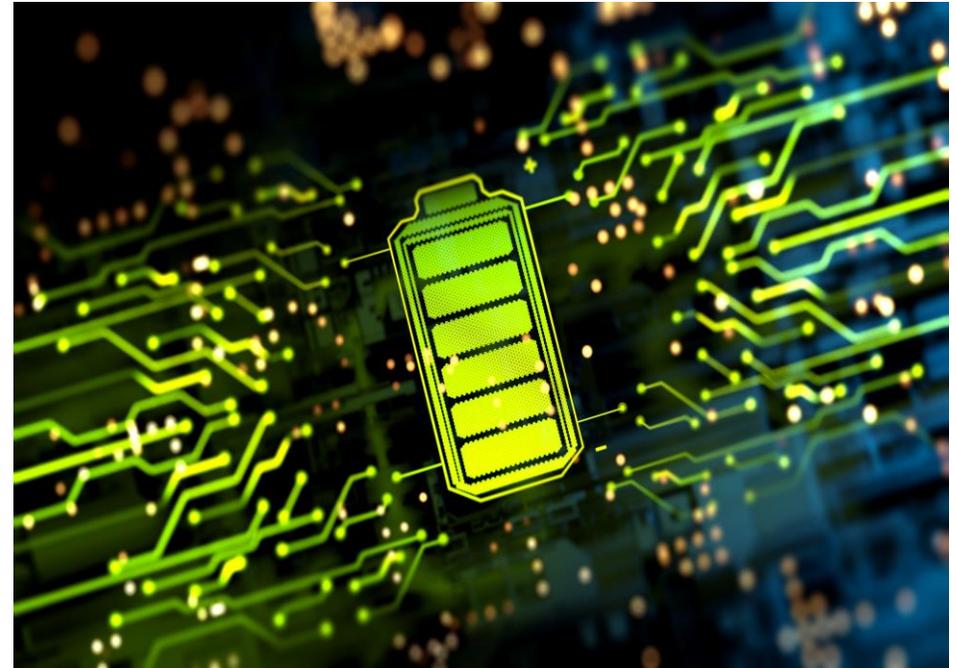

2022 Extreme Heat Symposium

Goal: inform heat adaptation across sectors and regions, including implementation of the Extreme Heat Action Plan and ICARP's Extreme Heat and Community Resilience Program

- Builds on success of \$865 million investments, legislation, Extreme Heat Action Plan
- Convened community leaders, state policymakers, scientists, public participants
- ~700 participants in-person and online
- Welcome from Governor Newsom, opening remarks by Secretary of Natural Resources Wade Crowfoot, Keynote by Assemblymember Luz Rivas, and closing remarks by OPR Director Sam Assefa

Building a Reliable and Safe Energy System of the Future

- Importance of scenario-planning
- Cutting-edge research to predict future trends
- Accounting for cascading and compounding climate impacts on the grid
- Grid reliability and resiliency

Re-Imagining Communication to Reach All

- Effective and targeted communications and awareness campaigns
- Emphasize both discrete events and long-term exposure
- Linguistically- and culturally-sensitive communications
- Leveraging trusted messengers
- Diversification of communication channels and platforms
- Robust community engagement
- Extreme heat ranking and warning system

Addressing Historical and Racial Inequities to Respond to Extreme Heat

- Extreme heat impacts are not experienced equally
- Direct overlay with redlining in some instances
- Center vulnerable populations in all state efforts
- Meet community needs
- Public health interventions

Scaling Innovative Solutions to Yield Real Progress

- Nature-based solutions also have adaptive co-benefits
- Innovative technologies also support cooling
- Success connected to improving social infrastructure and community cohesion

Discussion Questions

- Based on the Symposium's takeaways, what are the biggest opportunities and value add for the Extreme Heat and Community Resilience Program?
- What are other initiatives or priorities that could benefit from the model of the Symposium's convening power?
- What are other aspects of extreme heat exposure and response that require additional focus and could be explored through future TAC meetings?
- Where should we focus on implementation of the Extreme Heat Action Plan, based on the lessons of the Extreme Heat Symposium?

Item Public Comment

The background image is a composite scene. On the right, a blue bus is partially visible, with the number '4B' on its side. In the center, a person is riding a blue bicycle on a paved path. To the left, a person is leaning against a decorative metal railing. The background features trees and a clear sky. The text is overlaid in white, with a vertical bar separating 'Item 6' from the rest of the title.

Item 6 | *Achieving Resilient
Mobility* Report Briefing

Resilient Mobility

Hana Creger

The Greenlining Institute fights to build a future where communities of color can build wealth, live in healthy places filled with economic opportunity, and will be ready to meet the challenges posed by climate change.

GREENLINING is the affirmative and proactive practice of providing economic opportunities and a better quality of life to communities of color.

Resilient Mobility

A photograph of a flooded urban street. In the foreground, a young man in a white shirt is wading through the water, looking to his left. Behind him, another man in a brown shirt is also wading. In the background, two more people are visible: one in a white shirt and one in a red shirt. The street is filled with water, and buildings and utility poles are visible in the background, some with signs. The text "Resilient Mobility" is overlaid in large, white, sans-serif font across the center of the image.

Resilience and Mobility Links & Equity Gaps

Disaster Prevention

Disaster Response

Disaster Recovery

Disaster Prevention

- People of color more likely to live in areas with climate vulnerable transportation infrastructure

Disaster Response

- Transportation systems not designed for efficient routes to evacuate people, especially those without cars

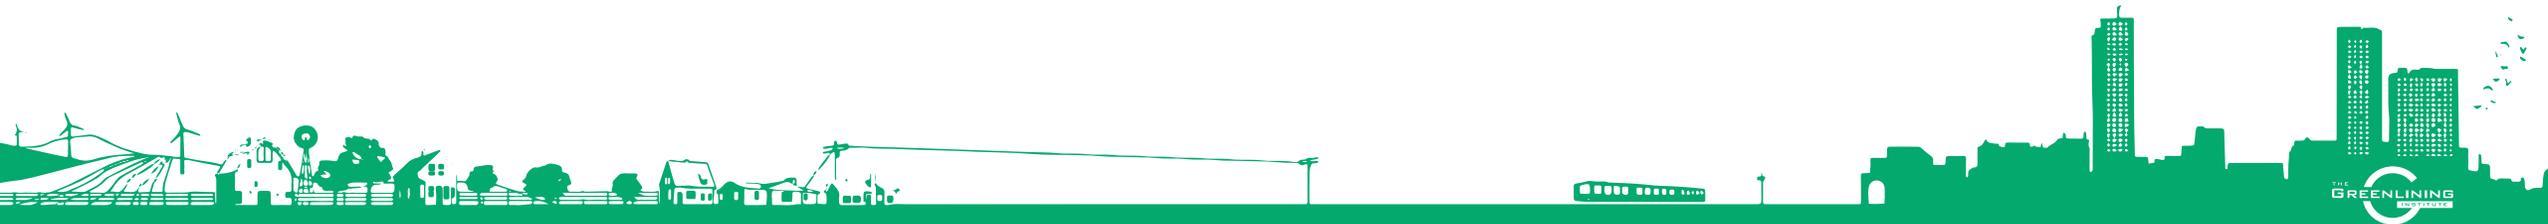

Disaster Recovery

- Recovery efforts must center long-term resiliency
- Disparities in who has access to FEMA disaster support, reliable mobility options, & other resources

Purpose

- Identify a set of guiding principles to serve as a foundation for a more equitable and resilient transportation system

Resilient Mobility Vision & Principles

07/13/2022

© The Greenlining Institute. All right reserved.

Resilient Mobility Vision

An aerial view of a modern, sustainable residential development. The scene features a mix of multi-story apartment buildings with balconies and single-story townhomes. A central green space includes a playground with a blue and black structure, a paved walkway, and several trees. In the foreground, a water feature with a small waterfall flows through a landscaped area with green plants. The overall atmosphere is bright and airy, suggesting a high-quality, walkable community.

A transportation system that facilitates resilience for frontline communities; that connects people to jobs that help build wealth; that mitigates air pollution and greenhouse gas emissions; that protects communities from displacement and homelessness; and that, in worst case scenarios, lets communities safely and equitably escape from harm.

Principles for Equitable and Resilient Mobility

- 1. Transform outdated practices.** Reassess outdated mobility planning, investments, programs and projects and reshape them to center equity, meet the current and future climate resilience needs of frontline communities, and not replicate past injustices.
- 2. People first.** Center the needs and priorities of frontline communities to shape transportation infrastructure efforts when preparing for, responding to and recovering from the effects of climate change.
- 3. Promote multiple benefits.** Promote policies and plans that offer multiple benefits to frontline communities to help alleviate the historical and compounded injustices. Climate resilient mobility strategies should aim to support health, economic and housing security, displacement prevention, access to clean technology and people's ability to live where they work.

1. Transform Outdated Practices

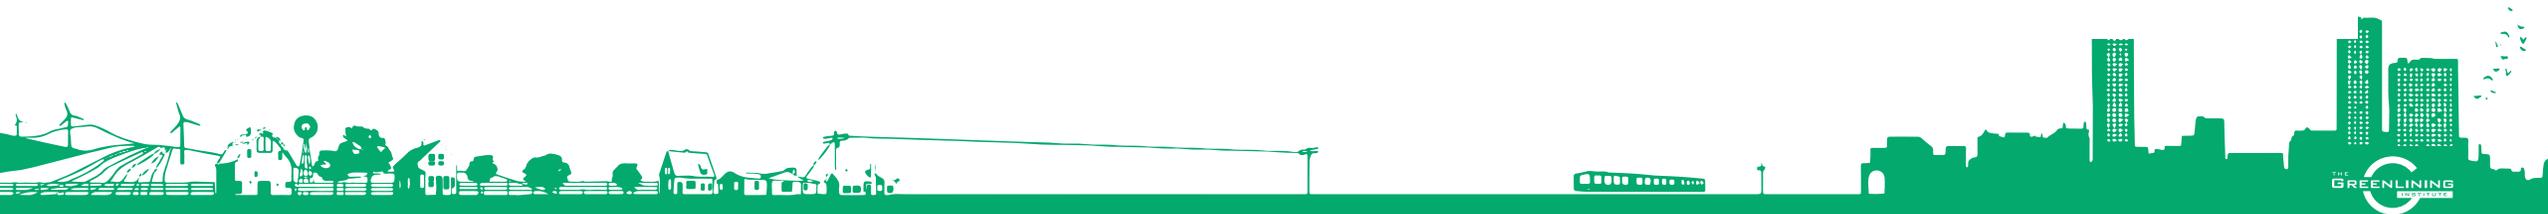

The issue:

- Car-centered transportation funding structures
- Outdated project pipelines
- Legacy of injustice in infrastructure

Transform Outdated Practices

Example Strategy:

- Assess local, regional, state, and federal transportation plans for their alignment with climate resilience goals and racial equity priorities.

2. People First

The issue:

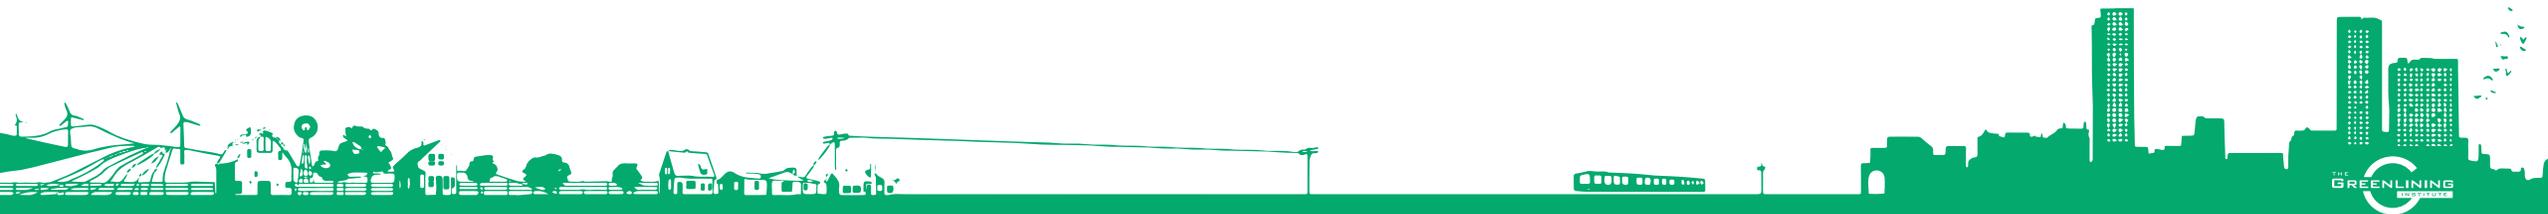

- Narrowly focusing on infrastructure without considering the impacts on people can perpetuate injustice.
- Must shift from “movement of cars” toward “movement of people”
- Climate disaster response systems are biased towards protecting property and infrastructure

People First

Example Strategy:

- Engage with communities to:
 - Determine alternative emergency evacuation plans for people without access to personal vehicles
 - Develop responses when services are disrupted during regular climate effects such as extreme heat.

3. Promote Multiple Benefits

The issue:

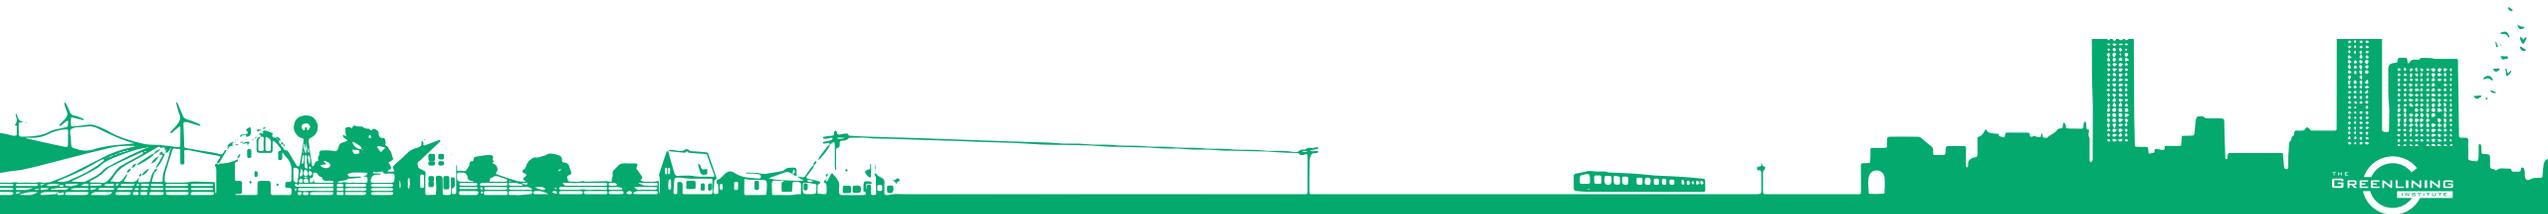

- Climate resilience, housing security, health, displacement, and transportation are interconnected issues

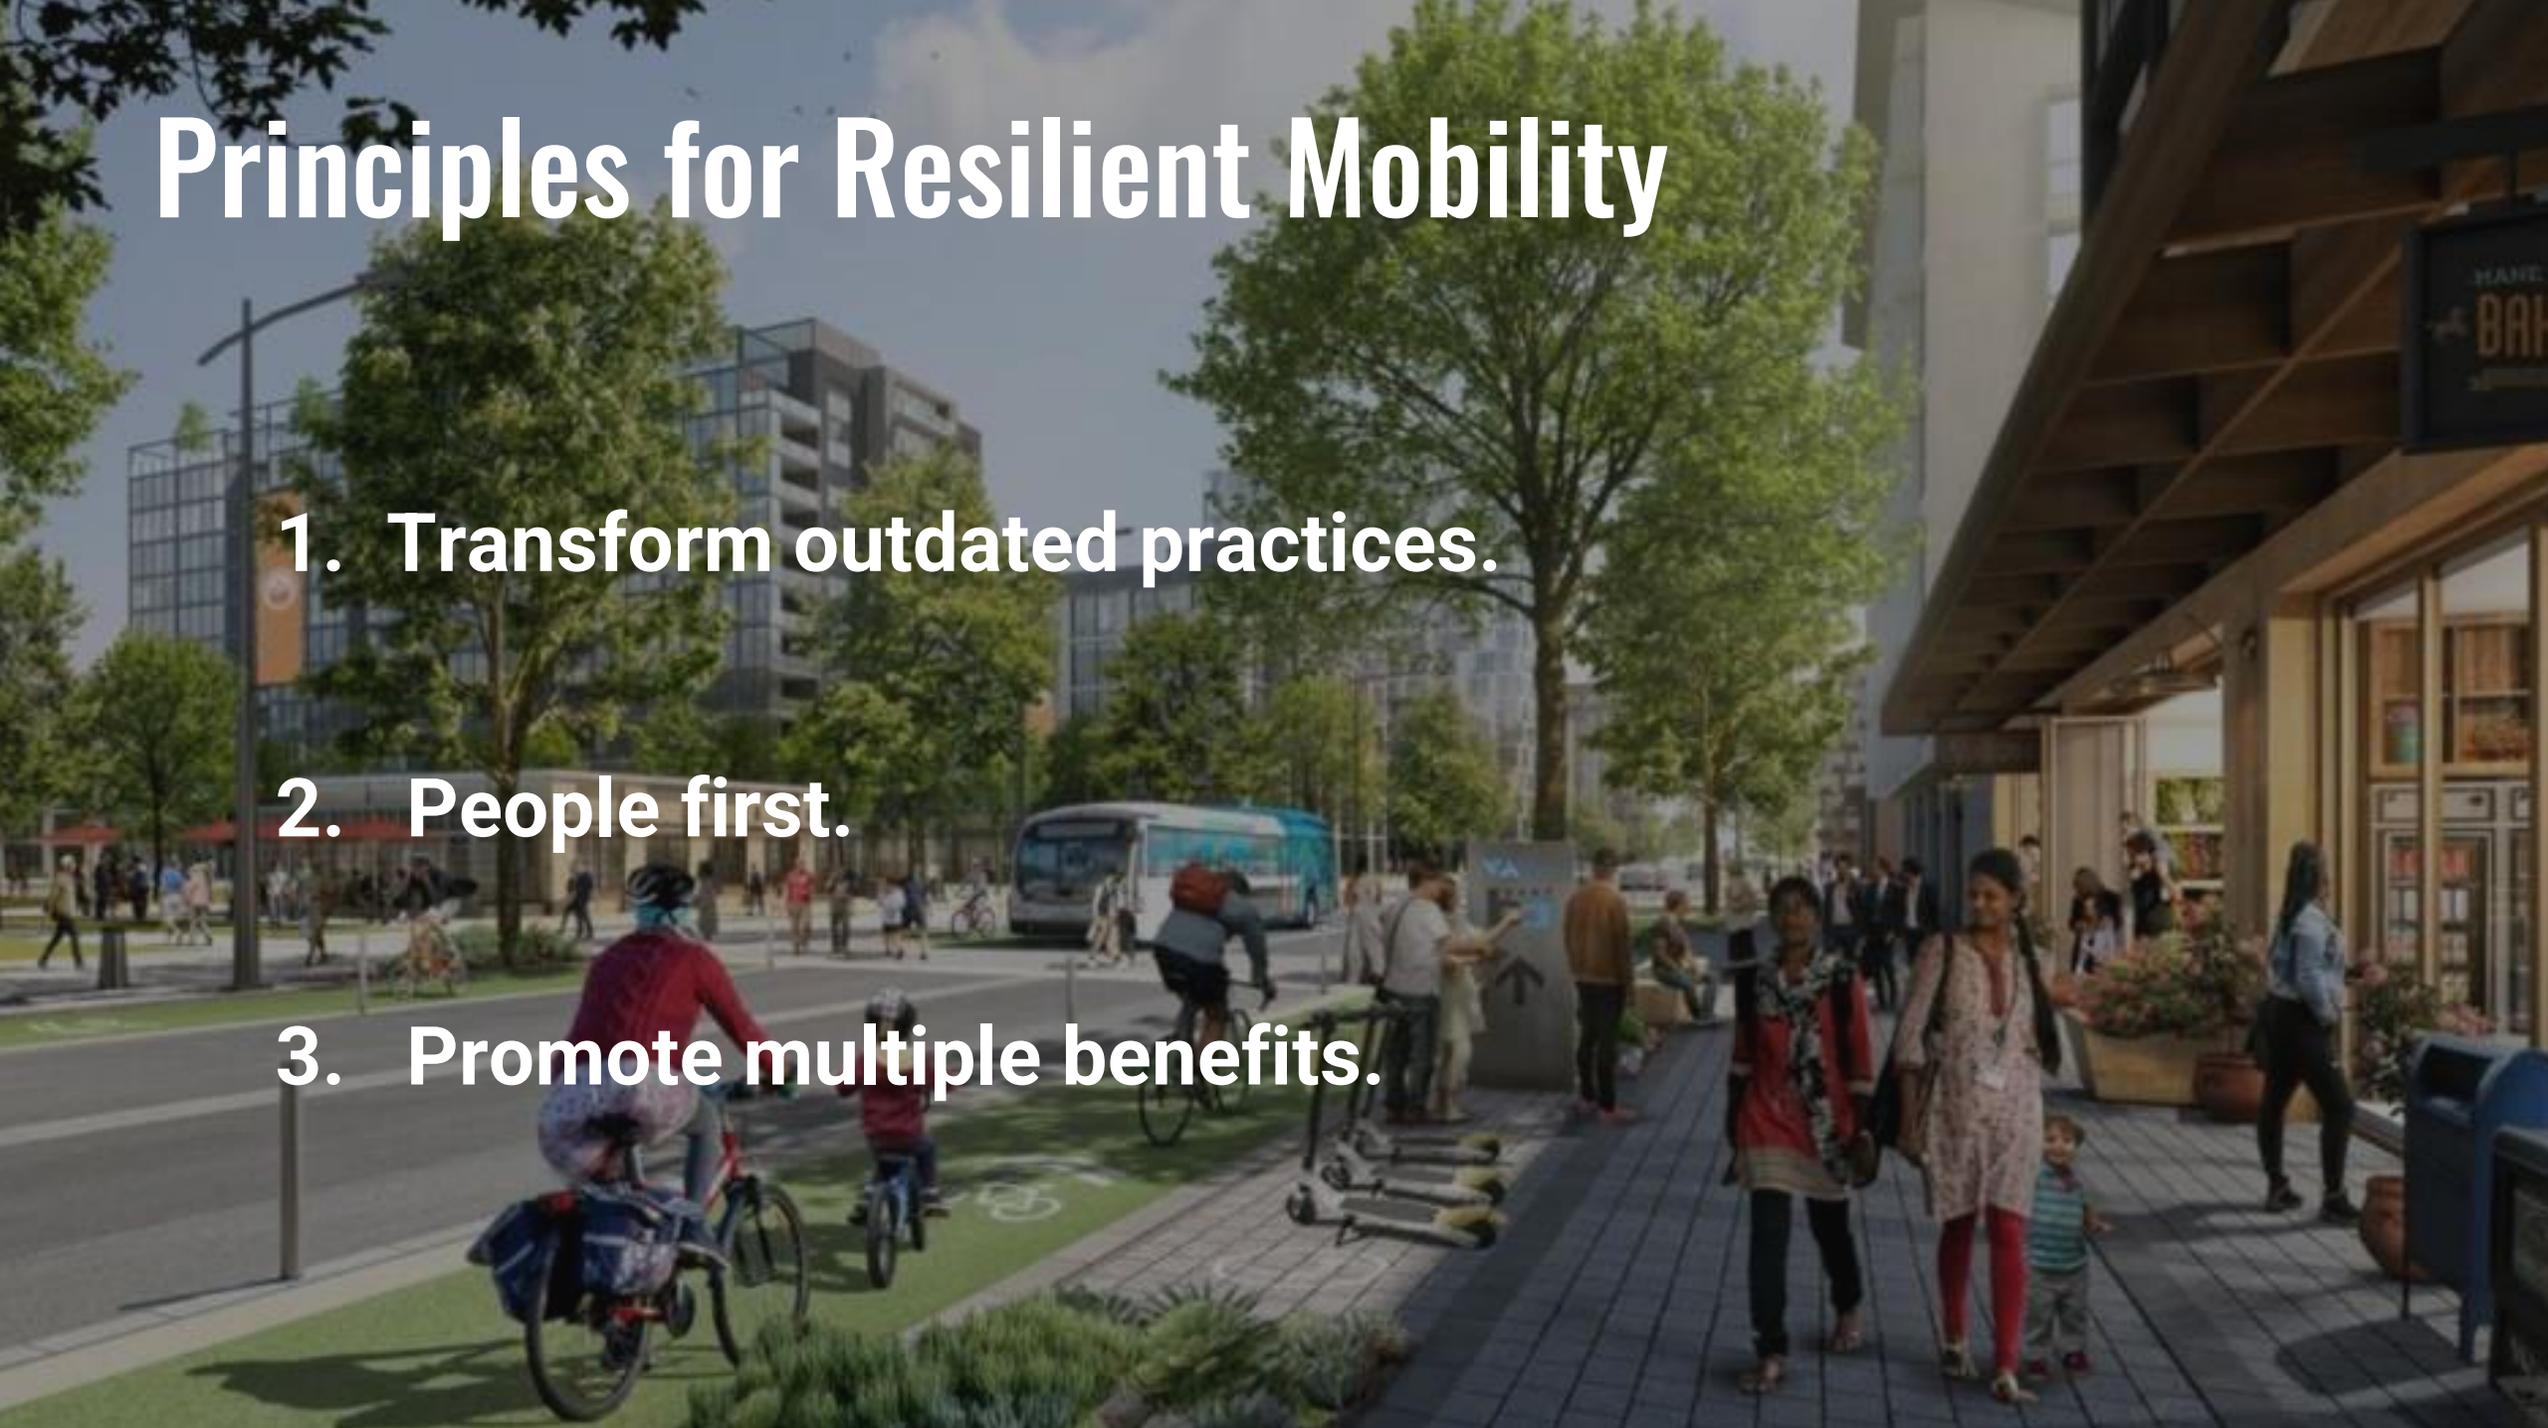

Promote Multiple Benefits

Example Strategies:

- Strengthen social safety net and disaster relief programs to support people who are cut off from transportation access to work during climate disruptions.
- Create a community-driven anti-displacement plan in parallel with transportation planning to ensure that resilient mobility investments do not exacerbate housing insecurity and climate vulnerability.

Principles for Resilient Mobility

1. Transform outdated practices.

2. People first.

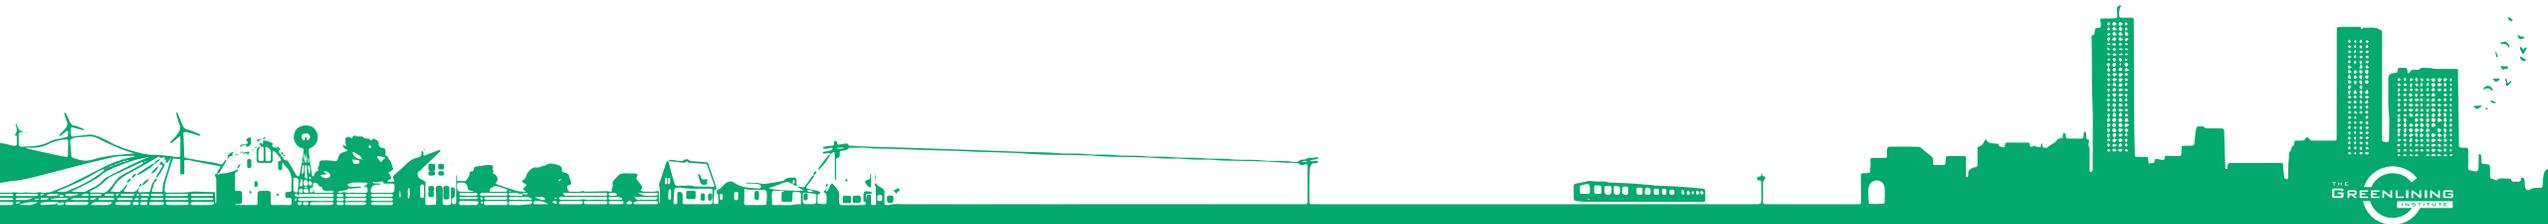

3. Promote multiple benefits.

Questions?

Discussion

- How are you thinking about the connections between racial equity, climate resilience, and mobility?
- What projects are you working on that's related to this work?
- What barriers exist to advance this work?
- What opportunities do you see to advance this work?

Item Public Comment

BREAK
Back at 1pm

ICARP Technical Advisory
Council Q4 Meeting

Afternoon Session Agenda

Item 7 | CDBG-MIT Action Plan Amendment

Item 8 | OPR Federal Funding Resources

Item 9 | General Public Comment

Item 10 | Closing, Future Agenda Items, & Meeting Adjourned

A serene winter scene featuring a snow-covered cabin with a chimney, surrounded by snow-laden evergreen trees. The sky is a soft, pale blue, suggesting a clear or slightly overcast day. The overall atmosphere is peaceful and quiet.

Item 7 | CDBG-MIT Action Plan Amendment

CDBG-MIT

Action Plan Amendment 2

**ICARP Technical Advisory Committee
Citizen Advisory Committee
December 9, 2022**

Agenda

1. 2021 CDBG-DR funding update
2. 2018 MIT Action Plan Amendment 2
3. 2018 MIT-RIP APA 2 program changes
4. Program alignment
5. Q&A

2021 CDBG-DR funding update

- HUD announced a second tranche of CDBG-DR funding for 2021 California wildfire recovery.
 - Adds \$9.6 million to the previously allocated \$14.8 million for a total of \$24.4 million
 - Includes Plumas County.
- CDBG-DR now includes a 15 percent hazard mitigation set-aside.
 - Started with 2020 allocations.
- Congress may permanently authorize the CDBG-DR Program in end-of-year FY 2022-2023 appropriations omnibus
 - Would trigger HUD to draft formal regulations for the program.

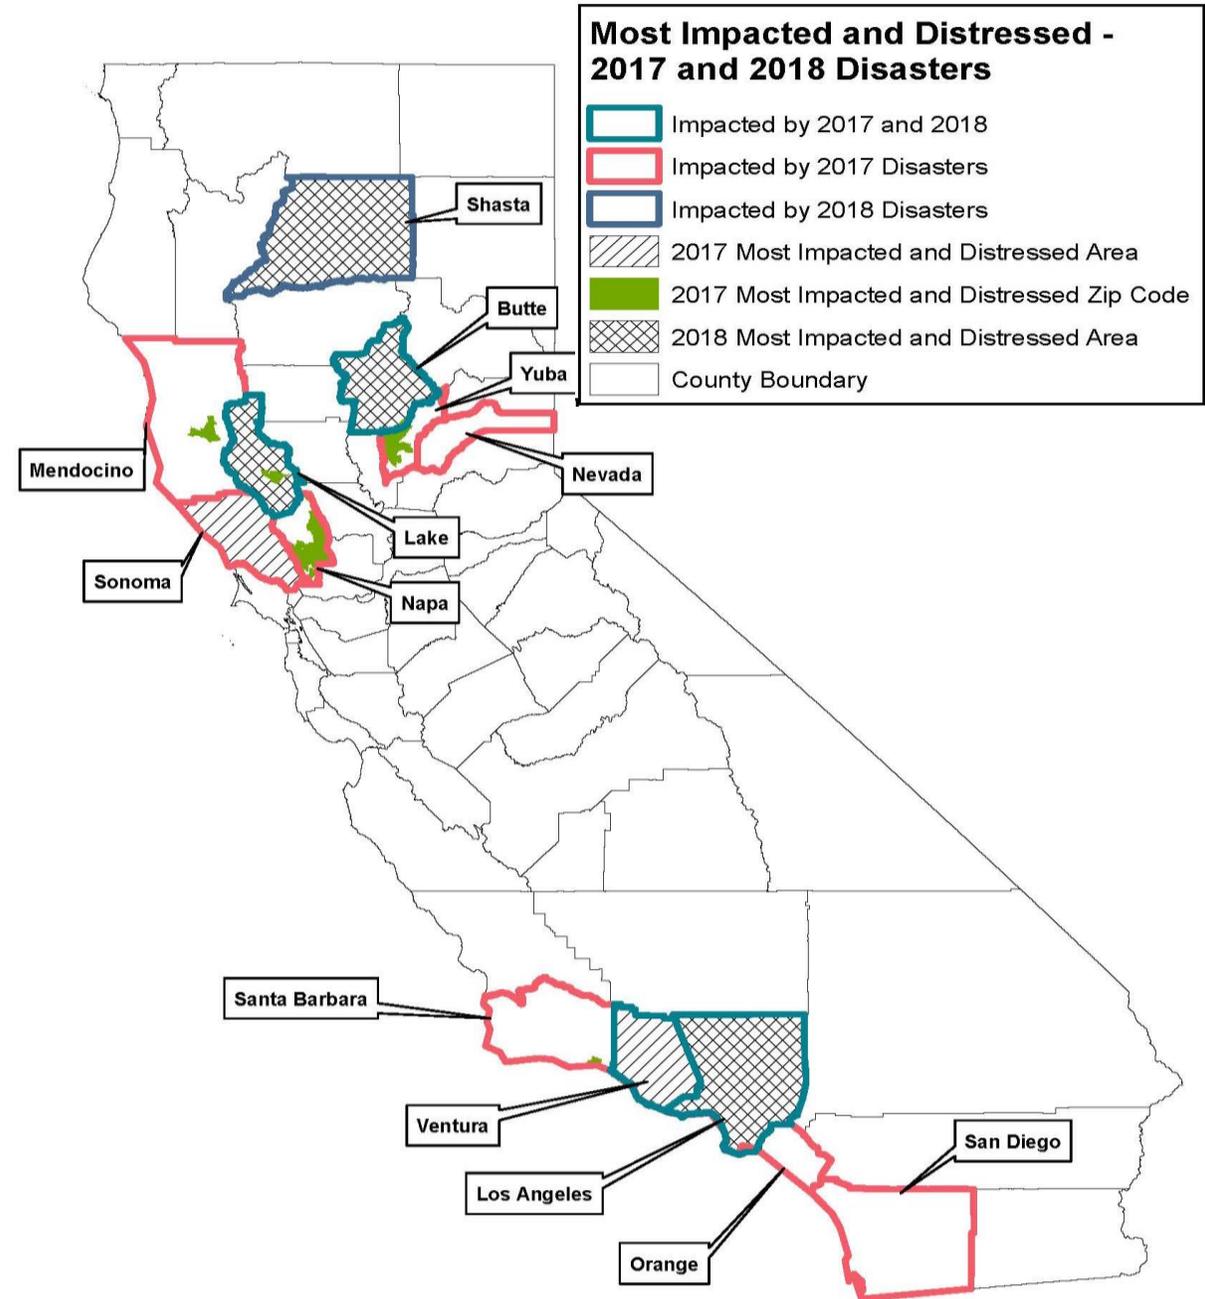

2018 CDBG-MIT Allocation of Funds

- Jan. 2021 Federal Register 86 FR 561 allocated additional \$64,907,000 in CDBG-MIT funds to State of California under Public Law 116-20
 - For FEMA Disaster Declarations DR-4407 and DR-4382.
- HCD is amending the combined 2017/2018 CDBG-MIT Action Plan again through a second Substantial Action Plan Amendment to modify the program delivery for the Resilient Infrastructure Program (MIT-RIP).
 - Combined Action Plan, but modifying DR-4407 and DR-4382 resources.

2018 CDBG-MIT Eligible Areas

- Most Impacted and Distressed Areas
 - Butte County
 - Lake County
 - Los Angeles County
 - Shasta County
- Eligible Applicants –
DR-4382 and DR-4407

2018 MIT Funding Allocation

Program	2017 CDBG-MIT Funding	2018 CDBG-MIT Funding	Total CDBG-MIT Funding
CDBG-MIT Resilient Infrastructure Program	\$61,379,000	\$45,175,272	\$106,554,272
CDBG-MIT Planning and Public Services Program	\$22,440,000	\$16,486,378	\$38,926,378
Administration	\$4,400,000	\$3,245,350	\$7,645,350
Total CDBG-MIT Program Funds	\$88,219,000	\$64,907,000	\$153,126,000

Substantial Action Plan Amendment

- 17/18 CDBG-MIT-Action Plan amendment, number two (“APA 2”), is a substantial amendment
- Update overall budget and program allocations to incorporate additional funding
- Update Mitigation Needs Assessment to include 2018 impacted areas
- Most impacted and distressed (MID) areas have been expanded to include the entire county
- Consult local stakeholders, to update Needs Assessment
- Post for Public Comment for at least 30 days

Action Plan Amendment Timeline

- Oct. 2022: CAC presentation
- Mid Dec. 2022: Post AP Amendment 2
- Mid-Dec. 2022- Jan. 31, 2023: Public Comment Period
 - Citizen Advisory Committee, local governments, tribes, and public comment
- Mid-Jan. 2023: General public comment meetings in English and Spanish
- Early Feb. 2023: Submit to HUD
- Early Apr. 2023: HUD approval
- Summer 2023: Subgrantees submit projects

HUD MIT Requirements

- Must meet the definition of mitigation
- 50% of funds must be spent in the MID and the remaining must benefit the MID
- Overall benefit is 50% LMI
- Infrastructure projects must have a long-term operation and maintenance plan
- 50% of funds expended in six years (Sept. 2027)
- 100% of funds expended in 12 years (Sept 2033)

Planning & Public Services (MIT-PPS)

Projects must meet the following Threshold Criteria:

- Serve the MID
- Meet HUD's definition of Mitigation
- Be eligible Planning or Public Services activities
- Benefit one of the following:
 - LMI populations
 - Tribal lands or people
 - Residents of under resourced jurisdictions
 - Elderly/disabled populations
 - Affordable housing communities
 - Remote community
 - Non-English-speaking populations

2017 MIT-PPS Round 2 & 2018 MIT-PPS

- **Over-the-Counter NOFA**
 - Open for an initial six months, or until program budget is reached, and assess the need after.
- **Per entity award cap: \$1.5 million**
 - No project cap.
- **Project Minimum: \$125,000**
 - **Exceptions:**
 - Match projects.
 - If a subrecipient submits related projects, they can count towards the \$125K minimum. (i.e., a planning project and a public services project to inform the public on the plan).

MIT-RIP Eligible Activities

- Hazard Mitigation Grant Program Match Projects
 - Infrastructure projects only
 - Cover non-federal local cost share
- Stand-Alone Projects
 - Denied FEMA PA Projects (Cat C-G), HMGP Infrastructure Projects
 - Public Infrastructure
 - Mitigation and Resilience components

Key 2018 MIT-RIP Program Changes

- **2017 funding:** HCD developed a **competitive application** through which eligible applicants can apply for funding.
- **2018 funding:** HCD will administer a **direct allocation** of funding to MID jurisdictions based on disaster impacts and hazard exposure, with a 20 percent set-aside for eligible jurisdictions that do not meet the direct allocation requirements.
 - Applications will be reviewed against eligibility thresholds to ensure that they meet program requirements.

2018 MIT RIP Allocation Methodology

1. Identified Counties/Cities in the MID
2. Applied a threshold:
 - Jurisdictions with less than 1% of total structures destroyed and less than 0.4% of total property in the Fire Hazard Severity Zone (Mod, High, and Very High) do not receive an allocation.
3. Combined data of jurisdictions that did not meet the threshold with parent county data.
4. Jurisdictions receive a proportional percentage of the total amount of funds available, based on damaged structures and property in hazard zone.
5. Twenty percent of each allocation is then taken out for a set-aside for the jurisdictions that did not receive an allocation.
 - Jurisdictions that are in the MID that do NOT receive an allocation may apply for funds in the set-aside.

Project Caps

- HCD's goal is to encourage applicants to leverage other state and federal funding
 - Project cap incentivizes layering funds (e.g. HMGP, BRIC, Prepare CA/Jump Start, Wildfire Prevention Grant Program, OPR Grant Programs).
 - Allows for increased opportunity for a variety of projects and jurisdictions to apply and receive funding.
- **Per-Project Cap \$2.5M**

2018 MIT-RIP Allocation

- Hybrid allocation and competitive set-aside.
- Prioritizes equity and allows jurisdictions in the MID to apply

Jurisdiction	Allocation
Butte County	\$6,109,510
Lake County	\$2,346,659
Los Angeles County	\$3,998,793
Malibu	\$588,934
Paradise	\$10,273,223
Redding	\$357,150
Shasta County	\$8,431,222
20% Set Aside	\$8,026,373
TOTAL	\$40,131,868

Eligibility Thresholds

- Details will be identified during the application, policies, and procedures phase.
- If threshold criteria is set, projects must meet one of the criteria set.
- HCD plans to provide criteria to subrecipients in the solicitation, along with data resources
 - Subrecipients can determine whether their proposed project would meet threshold prior to submitting to save them time/effort of submitting projects that would not qualify.
- All criteria must be defined and measurable.
 - Hazard exposure percentile, social vulnerability percentile
 - Align criteria with the Prepare CA/Jump Start Program, but adjust for the MID.
- If threshold criteria not met, then application is denied.

Eligibility Thresholds

- Hazard exposure and social vulnerability
 - Cal OES Hazard Risk and Social Vulnerability Dashboard
 - Align with PrepareCA/JumpStart but adapted for the MID
 - Census tract scale
 - Total hazard exposure percentile (e.g. above 70th percentile)
 - Wildfire hazard exposure percentile (e.g. above 80th percentile)
 - Flooding hazard exposure percentile (e.g. above 80th percentile)
 - CDC Social Vulnerability Index (e.g. above 70th percentile)
 - Ratio of median household income to statewide household income (e.g. below 0.8)
- Social vulnerability
 - Cal EnviroScreen 4.0
- Housing opportunity
 - Statewide Affordable Housing Opportunities Sites (excess state lands)

Program Alignment

- How could timing work to enable alignment and leverage between MIT and the Adaptation Planning Grant and Regional Resilience Grant programs?
- How would you define a vulnerable communities in California for the purposes of MIT project selection?
 - Especially consider rural areas, since those are the areas we are focused on for wildfire recovery and mitigation.

Q&A

Clay Kerchof, Disaster Recovery Specialist II

Clay.Kerchof@hcd.ca.gov

Maziar Movassaghi, Disaster Recovery Officer

Maziar.movassaghi@hcd.ca.gov

Item Public Comment

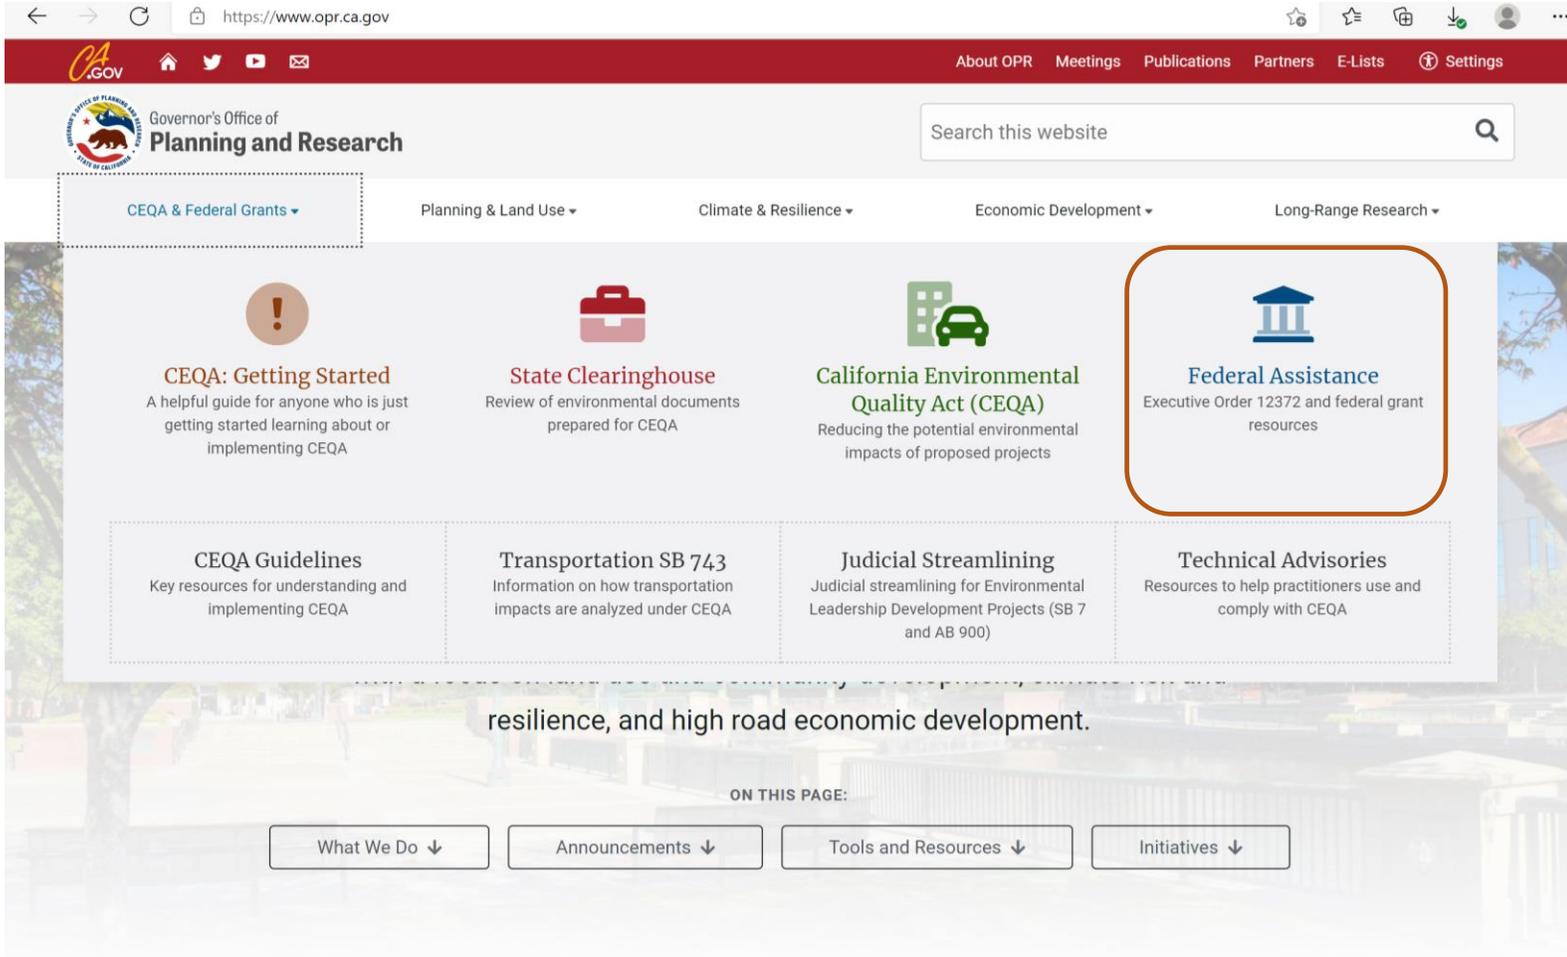

A red fox is shown in profile, standing on a snow-covered slope. The fox has a thick, reddish-brown coat and a bushy tail. The background is a soft, hazy landscape with a warm, golden light, suggesting a sunset or sunrise. The text 'Item 8 | OPR Federal Funding Resources' is overlaid in a large, white, serif font across the middle of the image.

OPR FEDERAL ASSISTANCE

[Federal Grants - Office of Planning and Research \(ca.gov\)](https://www.opr.ca.gov/sch/federal-grants/)

APPLYING FOR FEDERAL GRANTS E.O. 12372 PROCESS

The State Clearinghouse (SCH) serves as the state's Single Point of Contact for the submission of Federal assistance applications pursuant to [Presidential Executive Order No. 12372](#) and [SAM Section 0912](#). With the signing of [Assembly Bill 1348](#) the State Clearinghouse is responsible for reporting on all federal grants applied for and received in California regardless if they fall under Executive Order 12372. We have developed the new on-line database to assist with that reporting.

These applications must be provided to the SCH, which in turn publishes this information for review by State and local elected officials. The submittal of the SF-424 form on this website begins a 30-day review period. The SCH does not administer grant programs or offer any grant funding. Please visit [Grants.gov](#) for funding opportunities.

Federal Assistance Application

To apply for a federal assistance program, please upload a copy of your application cover form (Standard Form 424) to the SCH. DO NOT send your full application package or any other supplemental information.

In the appropriate box on Form 424, mark that the federal assistance application was made available for state review under the Executive Order 12372 process before submitting your federal assistance application to the federal funding agency.

FEDERAL GRANT RESOURCES

The screenshot shows a web browser window with the URL <https://www.opr.ca.gov/sch/federal-grants/resources.html>. The page header includes the CA.GOV logo, navigation icons, and a menu with links for About OPR, Meetings, Publications, Partners, E-Lists, and Settings. The main header features the Governor's Office of Planning and Research logo and a search bar. Below the header is a navigation bar with dropdown menus for CEQA & Federal Grants, Planning & Land Use, Climate & Resilience, Economic Development, and Long-Range Research. The main content area has a large heading "Federal Grant Resources" followed by a paragraph: "Resources to help you find, apply for, and manage federal grants from California's Single Point of Contact (SPOC) for the Intergovernmental Review of Federal Programs." Below this is a breadcrumb trail: "ON THIS PAGE: Introduction | Websites | Regulations | OPR Trainings | OPR Reports | For More Info". The main section is titled "Introduction to Federal Grants" and contains a paragraph: "Learn about the basics in federal grants from how to search for a grant, to the application process, post-award management, and how to comply with federal regulations." There are two list items: "Grants Learning Center" with a description and a link to grants.gov, and "Introduction to Grants.gov video series" with a description of the application process.

Overview

Objectives

The EAA program provides a wide range of technical, planning, and public works and infrastructure assistance in regions experiencing adverse economic changes that may occur suddenly or over time. These adverse economic impacts may result from a steep decline in manufacturing employment following a plant closure, changing trade patterns, catastrophic natural disaster, a military base closure, or environmental changes and regulations.

Item Public Comment

Item 9 | General Public Comment

A close-up photograph of a person's hands writing in a notebook. The person is holding a black pen and writing on a white page. The notebook has a teal cover. The background is blurred, showing another person's hands and a watch. The overall lighting is soft and warm.

Item 10 | Closing & Meeting Adjourned

Public Comment Process

1. The Council will hear public comments for each agenda item, and general comments unrelated to agenda items at the end of the meeting.
2. The council Chair will call on you in the order your comment was received by ICARP Staff.
3. Prior to making your comments, please state your name for the record and identify any group or organization you represent.
4. **Online participants:** please use the Zoom “raise hand” function.
5. **Phone participants:** please press *6 to “raise your hand.”

2023 Meetings

Special Meeting: January 27th

Q1: March 30th

Q2: June 30th

Q3: September 29th

Q4: December 15th

Thank You!
